### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 12, 2010 has been entered.

### ***Specification***

2. The amendment filed July 17, 2010 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

I. The amendment to page 12 of the specification replacing equation (3) with a new equation does not find support in the application as filed and therefore is new matter. Applicants state that, "Equation 3, has been amended to correct an obviously erroneous equation." and that new equation (3) properly represents the data in Table 1 of the specification as originally filed. The Examiner is not persuaded. It is not clear that original equation (3) is obviously incorrect. New equation (3) is not just a little

Art Unit: 1793

different from the original equation (3), for example new equation (3) does not merely correct an obvious typographical error in original equation (3).

Instead, new equation (3) is totally different from original equation (3) with all new exponents, coefficients and constants. Further, it is not apparent that new equation (3) is simply a representation of the data in Table 1.

Applicant is required to cancel the new matter in the reply to this Office Action.

***Claim Rejections - 35 USC § 112, 2<sup>nd</sup> Paragraph***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1 to 20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

I. In claim 1, line 16, the phrase, "the cold rolled strip" lacks a clear antecedent. For example, does this phrase refer to the "cold rolled strip" recited in lines 13 and 14 or does this phrase refer to "the cold rolled strip" recited in line 15?

***Response to Arguments***

5. Applicant's arguments and the amendments to the claims, see the new listing of the claims and applicants' remarks page 10, the first paragraph, filed July 12, 2010, with respect to the rejections under 35 USC 112 and the prior art rejection based on Huppi

Art Unit: 1793

have been fully considered and are persuasive. The rejections of claims 1 to 20 under 35 USC 112 and the prior art rejection based on Huppi have been withdrawn.

### ***Conclusion***
